Will it Save Work?

THAT'S THE QUESTION.

Don't buy a Kitchen Cabinet until you know it will save work.

The Hoosier Kitchen Cabinet

will supply a place to store everything—each article can be reached without a step—without a moment's delay. A Hoosier Cabinet means a neat, orderly kitchen and half the time saved in doing your work. It saves time—saves work and saves money—takes care of your materials and utensils—nothing wasted, nothing lost. Isn't it worth looking into?

If you will call at our store we will be glad to show this Cabinet to you. Sole agents in Mt. Sterling.

Facts About Kentucky Illiteracy.

Kentucky alone, Delaware excepted, is the only State in the Union that has no State university. Why do we stand idly by and see our sister States, for far less wealth in natural resources, outstrip us in educational advantages?

Only two other States have a greater percentage of illiteracy. Out of the twenty-five thousand common school trustees in the State, five thousand of them are unable to read and write.

Many say that our great percentage of illiteracy is due to a great degree to our large colored population, but only a glance at the national census report will prove too clearly that were it not for the colored population the percentage would be even greater than now. These facts should not discourage us, but only prove a stronger incentive to a nobler and grander effort for higher education as well as public education, since the education of the masses is directly proportional to the higher education.

While this State is discredited by her educational inferiority in that she has no State University, not a well developed school system and in many other respects it is yet encouraging to know that there is an earnest and growing demand for an institution of higher title and grander in proportions and wider in usefulness than the State College.

Saloonkeeper Fined.

At Midway, Ky., Keene McGinnis and S. M. Noel, who conducted a saloon before the local option election law went into effect in the county, under indictment in the Woodford Circuit Court for nuisance, pleaded guilty and by agreement the law and facts were submitted. The court fixed a fine of \$250 against each, which, with the costs, amounted to a total of \$508.80. The other indictments against them for selling liquor to a minor were dismissed.

Maj. Cyrus S. Radford, Assistant Quartermaster of the United States Marine Corps, whose home is in Philadelphia, and Miss Katherine Manson were married in Hopkinsville Wednesday.

Do good to all.

BIG BANKING MERGER.

Ex-Secretary Shaw May Head \$50,000,000 Combination.

Former Secretary of the Treasury Leslie M. Shaw may head a \$50,000,000 banking merger. Reports are current in the financial district that the newly organized Carnegie Trust Company, of which Mr. Shaw is the head, will be the nucleus of a combination of three trust companies whose total resources aggregate the figures given.

Officers of the company decline to discuss the proposition at present, but it is stated that tentative negotiations have progressed to a point where the question is receiving serious consideration from the three concerns involved.

Six Thousand Dollars Demanded As Ransom.

Six thousand dollars was demanded as ransom for eight-year-old Walter Lamana, son of a well-to-do Italian undertaker. The boy disappeared several days ago, and the police have vainly searched for him. The demand for ransom money, in a letter signed "Black Hand," was their first clue.

PAINT insurance—you may have fire, accident, tornado and burglar insurance. Green Seal Paint will insure your buildings against decay. Thomas Kennedy.

Lie Not In Courtroom.

Justice Brewer, in his New York address the other day, expressed a truth well worth writing in gold above the Judge's bench in every courtroom: "A lie has no place in a courtroom, and half a truth is often the worst kind of lie. A verdict won by a falsehood is a disgrace to the counsel, and equally so is a verdict won by a trick."

Sell Export Cattle.

At Midway, Ky., a splendid sale of export cattle was made when James W. Parrish sold to a representative of Swift & Co., of Chicago, 137 head, averaging 1,444 pounds, at \$5.35. They will be shipped directly from this point to England.

Great advance in purifying elections will come from Louisville election decision.

HAGER DECLARES FOR TEMPERANCE

Heartily Approves County Unit Measure.

Favors Further Development of That Statute.

Democratic Nominee For Governor Announces Stand.

WOULD ENFORCE SUNDAY LAW.

Special from Frankfort to the Courier-Journal, says:—In a letter addressed to the editor of the Kentucky Issue, Judge S. W. Hager, Democratic nominee for the office of Governor of the State, declares that if elected to the office, he will "favor and encourage the enactment of all reasonable and practical measures that make for and truly advance the cause of temperance."

In forceful language he adds that the county unit option law has his hearty approval, and he will favor the development of that statute to fully meet the demands of the people of the State.

WILL ENFORCE SABBATH LAWS.

He further says that he will stand for the strict enforcement of the laws, and will "exhaust every prerogative of the office in seeing that the laws relating to the proper observance of the Sabbath are enforced."

Judge Hager's letter to Editor Kelly is in response to one written by the latter making inquiry as to the Democratic candidate's views on the question of temperance, the further extension of the county unit local option statute so as to strike out the privilege now enjoyed by the cities of the first four classes, and the enforcement of the Sunday closing laws of the State. The letter from Mr. Kelly was written on May 29 last, and the response of Judge Hager on May 25 following.

Judge Hager's letter went directly to the office of the newspaper, but Mr. Kelly was absent in the East at the time and the letter did not appear in the June issue of the paper. For that reason and because the issue is published only semi-monthly, it was determined to make the correspondence public at this time.

LETTER ASKS POSITION.

The letter from Editor L. C. Kelly, of the Kentucky Issue, to Auditor Hager reads as follows: Louisville, Ky., May 2, 1907.—Hon. S. W. Hager, Frankfort, Ky.—Dear Sir: Never having seen a statement from your pen or heard an expression from you as to how you view the question of temperance, which is now greatly agitating the State, the temperance hosts in Kentucky are anxious to know what position you will take toward this great issue in the event you are elected Governor of Kentucky.

There are a number of measures vital to the welfare of the Commonwealth which will come before the next session of the Legislature, such as the extension of the County Unit law to apply to all counties alike, by striking out the amendment which permits cities of the first, second and fourth classes to vote as separate units on the same day on which the county votes; better enforcement of the Sunday-closing law, and a few minor amendments to existing temperance laws, which will enable a better enforcement of them in local option territory.

We respectfully invite you to express through the columns of the Kentucky Issue what attitude

you would take toward these measures, or similar ones, should they demand your attention as Governor of Kentucky.

Respectfully yours,
L. C. KELLY,
Editor Kentucky Issue.

HAGER EXPLAINS POSITION.

Judge Hager's response is, in full, as follows:

Frankfort, Ky., May 25, 1907.—Mr. L. C. Kelly, Editor Kentucky Issue, Louisville, Ky.—My Dear Sir: I am in receipt of your letter requesting me, through the columns of your paper, to define my attitude toward legislative measures relating to temperance and the better enforcement of the Sunday-closing laws, should such matters demand my attention as Governor of Kentucky, in the event I am elected.

Complying, I will say that I am in sympathy with the best thought and sentiment of our State, and heartily favor, not only the material advancement of our Commonwealth, but its moral upbuilding; and to that end, I elected Governor, shall favor and encourage the enactment of all reasonable and practical measures that make for and truly advance the cause of temperance.

I heartily approve the action of the last Democratic General Assembly in passing the County Unit law, the principle of which I believe to be thoroughly Democratic, and will favor such development of said law as will fully meet the demands of the people of the Commonwealth. I will be in sympathy with a policy that will keep the laws abreast of the best moral sentiment of the people.

Being a Democrat I believe in the largest degree of personal liberty consistent with the general welfare; but on the strict enforcement of the laws I stand "four square to every wind that blows."

When, and in the event I become Governor, my oath will be to faithfully execute the duties of that office. I shall prove true to my oath and duty "to take care that the laws are faithfully executed." Certainly, therefore, I shall, if necessary, exhaust every prerogative of the office in seeing that the laws relating to the proper observance of the Sabbath are enforced.

Very respectfully,
S. W. HAGER.

FIXING things up for spring may be accomplished with greater ease and better results by using Green Seal than by any other means. Thomas Kennedy.

State of New York Now Has Supervision of All Public Utility Corporations.

The public utilities bill was signed June 6 by Gov. Hughes. It places under direct State control every public service corporation in the State with the exception of the telephone and the telegraph. It applies not only to the railroads, street railway and subway lines, express companies and gas and electric lighting companies doing business exclusively in the State, but to the business within the State of all railroads or other common carriers which enter the State at any point. The two commissions created by the act will have most sweeping powers in regulating the corporations affected. The bill was urged by Gov. Hughes.

The Court of Appeals decided that the situs of bank deposits made by R. G. Dun & Co. is in Louisville, where the actual deposits were made, and not in New York, the home office of the company. Under the decision the company must pay taxes on deposits.

GOVERNORS

To Gather at the Irrigation Congress.

Governors of many States are expected to attend the fifteenth National Irrigation Congress to be held in Sacramento, September 2-7 next. The President of the Congress, Governor George E. Chamberlain, of Oregon, has written to the Governors of the sixteen Western States and Territories which come under the provisions of the Reclamation Act inviting them to be present and especially urging the importance of the presence of the executives of all those States. Governors of other States have also been or will be invited to attend and several are expected to come long distances for the purpose of attending and participating in the Congress.

The great irrigation works which are being constructed by the National Government in the sixteen Western States and Territories are an incentive to keen interest in the National Irrigation Congress and it is expected that most of the Governors of those States will attend. Other States are directly interested in forestry and have a common interest in wise governmental conservation and development of national resources.

For Talkative Women.

In the vestry of the church at Walton is preserved a beautiful instrument—an instrument as useful as it is beautiful—made in 1632. It is called a scold's bridle, and is intended as a gag for a lady of many words. It is inscribed with this couplet:

Chatter to Walton presents a treat,
To curb women's tongues that talk too free.
This charming instrument was presented to the church by a gentleman who lost an estate through the loquacity of a woman.

Great Success.

E. P. Clay, Jr., Paris, Ky., says: "I have had great success with Boulton Poultry Cure. On several occasions have cured chickens that were too sick to walk or stand up. Have lost but one old chicken this year."

Sold and guaranteed by W. S. Lloyd, Mt. Sterling, Ky.

Leo Tracey and Grace Browning while hiding together in the cliffs along the Tennessee river, in Lyon county, were shot and killed by Will Champion, after they had fired on Champion, the woman shooting from her position by the side of Tracey.

Men should be as careful of speech and conduct as they demand their sisters, sweethearts and wives to be.

ACT QUICKLY.

Do! Has Been Dangerous In Mt. Sterling.

Do the right thing in the right time. Act quickly in time of danger. Beware of kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ailments.

Plenty of evidence to prove this.

T. A. Shaw, the well known ex-clerk at the Fordham Hotel, residing on Main street, Paris, Ky., says: "I have had very little experience with proprietary medicines for my kidney trouble, but the successful results I obtained through the use of Doan's Kidney Pills makes me well pleased to recommend my hearty endorsement and recommendation. The pains across the small of my back were speedily cleared away, and I am thankful that through our newspapers I learned of Doan's Kidney Pills and procured a box. My health is so greatly improved that I cannot but consider Doan's Kidney Pills a remedy of the greatest merit."

Plenty more proof like this from Mt. Sterling people. Call at E. C. Dierksen's drug store and ask what customers report.

Wheat Conditions Not Favorable.

The Agricultural Department's crop report shows spring wheat conditions on June 1, 1907, 88.7, compared with 93.4 for the corresponding date last year. The acreage shown in the United States in 1907: Spring wheat 16,444,000, a decrease of 1,242,000 bushels, or 7 per cent, as compared with last year; winter wheat 77.4 as compared with 82.7, on June 1, 1906.

The total acreage of oats in 1907, 491,000 acres, an increase of 544,000 acres, as compared with the area sown last year. The condition of oats on June 1 was 81.6 against 82.9 last year; the average of barley is less than that of last year by about 171,000 or 2.7 per cent; the condition of barley is 84.9 against 83.5 this time last year; the condition of rye is 83.3 against 89.1 this time last year.

Doan's Regulax cure constipation without griping, nausea, nor any weakening effect. Ask your druggist for them. 25c per box.

W. ROGERS CLAY

Appointed Commissioner of the Court of Appeals.

The Court of Appeals Thursday agreed to appoint William Rogers Clay, of Lexington, as Commissioner of the Court of Appeals, to succeed John D. Carroll, of Henry county, recently appointed to succeed Judge James E. Cantrill, resigned.

The office was created at the time Judge Cantrill failed in health, the object being to eliminate the necessity of the Court of Appeals falling behind.

Mr. Clay was born in Fayette county November 9, 1864. He entered Kentucky University, from which institution he received the degree of B. A. with the class of 1885. Mr. Clay's work here did not satisfy him and he matriculated in Georgetown University at Washington, D. C., where he received the degree of L. D. in 1888. In 1889 he had conferred upon him the degree of Master of laws.

He was Superintendent of Public Schools of Lexington for several years. Nearly four years ago he was made City Solicitor for Lexington, and has held that office with distinction ever since.

Mr. Clay is one of Lexington's most eloquent speakers and his name as an after-dinner speaker is un-reaching.

WOLF COUNTY ITEMS.

Campton Courier.

Lightning struck and fired the tank house of the Tecumseh Oil and Gas Co., containing two 250 barrel tanks. House and tanks contained about 200 barrels of oil. Loss, \$750.

The heavy rain, Friday, June 7, played havoc with the Mountain Central Railroad. From the mountain, two miles from Campton Junction, the track is covered up and washed out to such an extent the train cannot run over it. The train only makes the trip to the top of the mountain, where the passengers and mail carrier take it a foot on to the junction.

Chimney Top Creek went wild, doing considerable damage to growing crops, washing away the dwelling of Robert Hule with all the household effects. The family saved themselves by taking refuge in the hills. Chimney Top narrow gauge R. R. was completely washed away.

Escaped to Cliff.

A Mt. Sterling news item in Sunday's Lexington Leader, in speaking of Robert Hoeker, a negro who killed a Fayette county farmer, Mr. Veal, says:

"Hoeker was located in Mt. Sterling Saturday morning and was trailed to Ewington station by C. & O. detective Tipton, of Frankfort, and Deputy B. F. Burkley, of Lexington. When overtaken by the officers he immediately escaped to the bushes and cliffs."

Now, think of that: bushes and cliffs at Ewington.

KENTUCKY CROP REPORT.

Crops of all kinds are far behind and in most cases anything but promising. And to add to the damage done by frosts and cool, damp weather, the cut worms were never more plentiful and destructive. The army worm has done destructive work in a large part of the State. Old meadows, pastures and many wheat fields fell an easy prey to their ravages. In some localities corn fields and early planted tobacco were damaged by them.

Much corn land has not been planted on account of too much cold and wet, and many fields of the early planted had to be planted over. The acreage compared with a five year average is 96 per cent. Condition is 77 per cent.

The acreage of wheat is 90 per cent. Condition is 82, a falling off of seven points since our May report. The oat crop is a little short and is off in condition from 83 in May to 73 at this time. Hemp is 83 per cent and 90 in condition.

There is general complaint of a scarcity of tobacco plants. It looks now that it will be impossible to plant a full crop and much of that will be late.

The scarcity and high price of stock peas has cut the acreage of that crop.

Apples promise about a third of a crop and peaches nearly a failure. The berry crop promises fair yield.

Our "Cuban Blend" at 16c, better than any 20c Coffee sold elsewhere.

SPOT CASH does the work. If your credit is good enough for groceries why should it not be good enough in bank or with a friend to borrow the CASH at 6 per cent., save the 25 to 50c by dealing with us and thus be from 19 to 44 per cent. ahead in the game!

RULES? Yes, indeed, we sell you goods cheaper than any one else who knows it—and are independent enough to have a few Rules by which to conduct our business. Here are a few: SPOT CASH ONLY and not even a ticket, no matter how big you think yourself.

Don't drive up on a rainy day and expect us to come out and get soaked for the sake of a few pennies. Do unto us as you'd have us do unto you.

If your horse is gentle, come in the store to transact your business. We are not running a Grocery Store. Roth Bros. Store and with customers in the store ahead of you, cannot afford to neglect those who came first. Come in and take your turn.

No, we don't like to deliver less than 25c worth of goods—it's a money-losing deal, as time is worth money, and our horse, wagon and driver costs about \$800 per year, so many dollars and pennies per month, day or hour. The actual cost of delivery would be from 15 to 20c, according to the distance this you see we'd lose from 2 to 7c on the deal—and you would not work for us without pay, would you?

Goods not satisfactory must be returned, else we can not refund money. We want them in OUR back yard, not in YOURS. If you like our goods, our low prices and our aim to please you, tell others; if not, tell us.

CONVENTION.

The Republican State Convention meets in Louisville today. Indications are it will soon be over. A. E. Wilson, of Louisville, will be nominated by acclamation, as about nine-tenths of the delegates are instructed for him. Senator Cox, of Mayesville, appears sure of the Lieutenant Governorship. We are informed that the convention will adopt a temperance platform. Some say they will, some say they will not name Kentucky's choice for President. The assembly promises to be harmonious.

Attention, I. O. O. F.

All members of Watson Lodge No. 32, I. O. O. F., are requested to meet at their hall, Sunday June 23, 1907, at 1:30 o'clock p. m., to observe Memorial Day by placing flowers on the graves of their deceased brothers. Bring flowers. By order of Watson Lodge No. 32, James W. Groves, Sec'y.

Big Bargain.

A piano firm writes us that there is at the C. & O. depot a fine piano (price \$620), shipped to somebody in a nearby territory; that same has not been taken out, and asks that we pay freight charges; that they will give full consideration to any reasonable figure submitted by us that this is practically giving an opportunity of securing this piano at our own price. "We leave it to your own judgment," etc. They are "willing to sacrifice the instrument, regardless of cost," etc. Here is a chance for "a bargain" and a sucker.

ROOMS FOR RENT.—Three rooms on Harrison Avenue. Mrs. D. A. Garner.

Large Three Story.

On the line of the C. & O. a three story brick building is being erected which will contain the latest improved machinery with which to clean blue grass seed rendering them absolutely free from impurities. This building will also have sufficient space to store many thousands of bushels. It will be so constructed that the temperature may be easily regulated and will be a bluegrass and storage building second to none in the blue grass section. The company, Messrs. Tabb, Bigstaff, Cockrell and Pickrell are to be congratulated on having such a building of modern equipment located in the busiest city of its size in the state.

June Court.

About 1200 cattle on the market. The quality was common. Prices high, especially for heifers. Trade was a little slow, buyers being shy to pay the high prices asked. There was nothing on the market but light weight steers. 700 lb. steers sold at 4 to 4½. Yearlings at 4½ to 5. Heifers at \$3.00 to \$4.25, the latter price for fat stuff. Cows at \$3.25 to \$4. Bulls at \$3 to \$3.25. Small crowd at the pens and sales were slow, except for heifers and cows. They were brisk. We caught a few.

SALES.

Judge B. F. Day bought 11 about 400 lb. steers of Napier Bros. at \$17.

Kennel & Cason, of Cynthiana, bought 4 750 lb. heifers of E. H. Oldfield at 4c.

C. M. Stafford sold 16 650 lb. heifers to W. P. Thomas, of Bourbon county, at \$3.69.

Mike Wilson sold 10 900 lb. heifers to F. M. Gillispie, of Bourbon county, at \$4.25.

J. J. Prater sold 5 950 lb. cows at \$3.35.

Ray Moss sold 8 900 lb. heifers to Hibler & Robinson at \$4.10.

R. S. Miller, of Clark, sold a harness gelding to Mr. Leach, of Georgetown, for \$140.

Sam Laythrum, of Bath county, bought 8 850 lb. heifers at 4c.

McGuire & Webb sold 2 1125 cows to Joe Orear at 4c.

Dan Welch bought 25 cows and heifers at \$3.25 to \$3.75.

G. W. Halsey sold 20 short yearlings, about 400 lbs., at \$16½ to T. J. Thomas.

Mat Long and Bro., of Paris, bought 11 yearling steers at \$20 and 14 about 425 lb. heifers at \$17 of G. W. Halsey.

Wm. Stone sold 18 450 lb. heifers to F. B. Henry, of Carlisle, at \$3.75.

Wm. Bridgeforth bought 6 700 steers at \$4.10.

Wm. Lykins sold 10 700 lb. heifers to Kennel & Cason, of Cynthiana, at 4c.

Wm. Lincus sold 16 about 450 lb. heifers at \$16.50.

C. M. Stafford sold 12 650 lb. heifers to Kennel & Cason, of Cynthiana, at 4c. These gentlemen bought about 40 heifers at 4c.

C. C. Kokendoller, of Carlisle, bought a bunch of 900 lb. heifers of C. M. Stafford at 4c.

MULES.

Very few mules on the market and sales were few. Prices strong. Dick Rathiff sold a fine pair of 1 year old mules to a Mr. Rathiff, of Pike county, at \$500. Horses were in demand and a good many sold. Some nice ones were bought by Henry Caywood at from \$200 to \$350. Thus, Davis also bought several head.

Legs Off.

In Paris on Sunday morning at 1 o'clock an L. & N. train ran over Alvah Thresher, 21 years, of Wades Mill, in Clark, and cut off both legs above the knees. He soon died.

THE LINE BETWEEN

Stein-Bloch and Hamburger Clothing

And other ready-to-wear clothing is so great that even poorest judges of merchandise can at once see the difference, to say nothing of the discriminating buyer, who long ago learned that all things are classified and that all standard goods are labeled. The labels on the Stein-Bloch and Hamburger Suits stand for a half century's work, worry, system, and knowing how; a half a century's combined efforts of labor and capital, to make and keep them the foremost ready-to-wear clothes in the world. They stand today in a class that is strictly their own, and of their own making, they are different, and if they were not different they would not

be here; and again, if Walsh Bros. could not sell different clothes from other stores, they would not be selling clothes. To the man who lives in this great country, who is carrying the high-priced tailor's burden, or shoddy tailor's raiment, we know there is a reason for your sorrow. Perhaps some years ago you bought ready-to-wear clothes from some unscrupulous store who cared not for fit, style, or value, or you, and you have since camped out. We want you; we want you to return to ready-to-wear clothes, to come to our store and see the great progress your country has made in the tailoring of ready-to-put-on apparel. It is worth your while, and the more discriminating you are the more capable you will be of appreciating the art of our offerings.

COME TO-DAY.

The great Stein-Bloch Suits and Outing Suits in the new English sack coats, made with broad, elegant shoulders, new style set pockets, new style cuffs on sleeves, with deep gorge collars and broad lapels, closing with 3 buttons that are set very close together; new 3 and 4 button vests, with or without flaps on pockets; and the latest cut trousers that are especially tailored for spring and summer wear. The greys, blues, browns and tans which are so popular this season in fabrics for men's clothes show up beautifully in the English Sack, Stein-Bloch Suits as low as

The Newport Sack, the Sagamore Sack are two of the latest creations from the tailor shops of Hamburg. These garments are swell things for young fellows who want extremes in their clothes. The fabrics are the latest things shown in the New York market, and have just come in by express. Gun Club Checks, Chain Weaves and Shadow Plaids in Elastic Velour Cassimers. The fabric here used in these garments has no equal for its shape-retaining qualities, the broad shoulders and curved lines of Hamburg's garments rounds out the figure of the youth as no other clothing can.

Apples Preserved in Ice.

J. C. Brannbeck, of Wallis Run, Lexington county, adopted a unique method of preserving his apples last fall. He built a bin in the orchard seven feet wide, fourteen feet long and three feet high. In the bottom of this he put straw, then filled it with apples, putting straw on the sides and ends. Then he placed straw and cornstarch on top. He dug a ditch around it to keep the water from standing there. Some water, however, found its way through the top and formed ice about each of the apples, but they were not disturbed until the ice had all melted. The apples are now sound, crisp and without a wrinkle. —Philadelphia Record.

It is now possible under the new laws of Tennessee for the saloon licenses in the large cities of that state to be raised to \$1,500. If this is done a number of the cheaper and more lawless saloons may be closed, but that will only enhance the danger of the so-called decent and respectable places by giving them a firmer grip on the municipalities and heightening the respectability of these places. A saloon is inherently, necessarily, fundamentally dangerous and bad, and no amount of whitewashing and veneering can make it good.

FOR THE HEADACHE SUFFERER.

Sleeping with His Head High Will Frequently Bring Relief.

"It is so strange, doctor," complained a woman patient, recently, "that when I have had a perfectly good night's sleep I should so often wake up with headache."

"How many pills do you have under your hand?" asked the physician.

"One thin pillow," was the answer.

"Try two fairly thick ones," the doctor advised, adding that many congestive headaches were caused by people sleeping with their heads too low. The blood settles in the head and the sufferer wakes with a dull feeling or throbbing pain. Pervious subject to natural headache should be careful to have their heads high enough at night.

In cases of headache or facial neuralgia where mustard would be perhaps too severe, a mixture of white of egg and red pepper may be safely used. It will be found quite as effective as the mustard, but it will not blister nor leave unsightly red blotches even on a tender skin. It can be safely applied at the base of the brain for that "headache in the back of the neck" which begins to be complained of at about the time when the storm and stress of the holidays have exhausted the nervous energy. —Harper's Bazar.

TONS OF SOOT.

A scientific investigator in Cincinnati has been trying to arrive at a definite idea of the amount of soot deposited in the city in the course of a year. One of his tests was to place two buckets, three-fourths filled with water on 11 posts in different parts of the city. At the end of three months a careful analysis of the contents of the buckets to ascertain the amount of carbonaceous matter was made. The result is that in the down town area the falling soot amounts to 511 tons a month, or 18 tons daily. On a square mile of the city the soot deposit is 121 tons a month, or 333.28 pounds, an average of several pounds to each inhabitant. In one of the suburbs the soot in the bucket was 161 grams to the square foot for a period of 30 days. For the same time the deposit at a central point in the city was 22,250 grams to the square foot.

RELIC OF OLD ROME.

Near the Lucrine lake, to the north of Baido, Italy, where the villas of Romans of imperial times crowded each other to the water's edge, and where, in consequence, to this day the ground is full of archaeological treasures, a very fine mosaic has just been discovered. In form it is a parallelogram, measuring about five and a half yards by nearly ten yards. The piece represents a hunting scene in which there are many wild beasts and several hunters, the favorite subject for large mosaics in those days. It has been bought for \$1,500 by the country of public works for the decoration of the great monument of Victor Emmanuel in Rome, which is slowly taking form, and will eventually dominate all old Rome.

Do You Open Your Mouth

Take a young bird and strip down whatever food or seed may be offered you. Do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes a treatise on each bottle of Dr. Pierce's Food for Weak People. This he feels he can afford to do because the ingredients of which his medicines are made are studied and understood. The Food is a superior nutritive.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, baricache dragging down pain or distress in low abdominal or pelvic region, accompanied, often, with a debilitating pelvic catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing infantile perils in giving strength to nursing mothers and in restoring the system of the exhausted mother. Dr. Pierce's Food for Weak People is a most potent, strengthening tonic to the general system, and in particular, it is a most effective and invigorating medicine and cures nervous exhaustion, nervous prostration, neurasthenia, hysteria, nervousness, and all other distressing nervous symptoms attendant upon the various phases of the female system.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which Dr. Pierce's Food for Weak People is made. The Food is a most potent, strengthening tonic to the general system, and in particular, it is a most effective and invigorating medicine and cures nervous exhaustion, nervous prostration, neurasthenia, hysteria, nervousness, and all other distressing nervous symptoms attendant upon the various phases of the female system.

Should We Smoke?

There are a few men in the world, and even in this progressive age, many women—who have never known the pleasure of enjoying a well-ordered dinner with a well-selected cigar. To these the best dinner is as a rose without perfume, compared with what it is to the man who loves his cigar wisely but not too well, and knows how to draw the line judiciously between indulgence and injurious excess, between temperance and total abstinence. Because of these facts there is a large proportion of the total population of the earth that clings to the consolations of tobacco, despite the philosophy of the pathologist, and among the unregenerate we commonly find the physician, who would heal others with his advice, but refuses to heal himself in accordance therewith. It is cheering to the smokers to hear occasionally from some well-informed source an opinion in behalf of tobacco as a knitter up of the raveled sleeve of care and "fired nature's sweet restorer."

Dr. Nalpassee, a French physician and savant for who shall be denied the last distinction if he risks to maintain that Nicotine is not the seventh devil that besets the path of pitfalls trodden by mankind!—says that tobacco is not an unmitigated evil, and that a good cigar after a good dinner augments a whole man, or words of similar import.

Of course, growing children and teething infants should not smoke, according to Dr. Nalpassee; but a few cigars a day, and more especially the perfect that follows walnuts and wine, may be smoked by any healthy man without injury to his organs and without any considerable risk of reducing his days in the land before the period of the life of the average man who has obeyed the Scriptural injunction to honor his father and mother.

This opinion is endorsed by a Philadelphia physician, and since the wisdom of the Philadelphia lawyer had molded a proverb, are we to question the wisdom of a Philadelphia physician? we of the hilly or physicians of a lesser breed?

Says the Philadelphia physician, a modest man who has foregone the pleasure of having his name lauded down in history, by making his statement anonymous: "Most persons experience bad results because they do not know how to smoke." Reasonable! Here is the wisdom of the Teuton applied by the Gaul to the smoker's problem and endorsed by the American. Your German knows that there is the finest quality of truth in the very letter of the rule in Holy Writ that he that riseth up in the morning and followeth

after strong drink sows the seeds of folly and reaps a harvest of woes under a law of Nature as inexorable as the law of gravity. He may sing and drink from dusk until the shank of the evening, but avoids the insidious dangers of the "eye-opener" as he would a pestilence.

A cigar grown cold and relighted is unwholesome, says the Philadelphia physician. He fails to add that to a discriminating palate it is like the second cup of coffee that however well made lacks something of the flavor of the first, if only by reason of some small difference that would not have been a defect had the order of the cups been reversed. The relighted cigar is smoked down to the wet butt, and the butt chewed after the cigar is half smoked, are full of danger, according to this authority, but a good cigar kept lighted until the fire-line has reached the third quarter of its length and then thrown away, may actually cure dyspepsia. Persons who are nervous, or whose heart is weak, or whose lungs are bad, should not smoke at all.

Clipped of its scientific terminology and boiled down to its essentials, the advice of Dr. Nalpassee and the Philadelphia physician is that only healthy persons should smoke temperately and intelligently. Here science and horse sense walk hand-in-hand. It is not the taking of the goods the gods provide that brings disaster, but not knowing how to avoid making a luxury a curse. The conclusion might be arrived at as readily by an intelligent artisan as by a man of science, but the scientists alone can speak with authority upon such matters, and therefore Dr. Nalpassee and his indorseer are the creditors of the smoking fraternity for having put the hallmark of approval upon tobacco used temperately.—Exchange.

It Takes Nerve

Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins; it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or eat well, have pain or misery anywhere, your nerves are weak, and your system run-down. To restore this vitality take Dr. Miles' Nerve which will strengthen and build up the nerves. You cannot be healthy without strong nerves.

"For eighteen years, Dr. Miles' Nerve and Kidney Pills have been my close companions. Early in married life, while rearing children, my nerves became all worn-out—could not sleep, had no appetite, digestion very bad, and had such awful dizzy spells. Then I began using Dr. Miles' Nerve, and at once I began to improve, and now I found myself in perfect health." MRS. S. J. YOUNG, 324 Pittsburg St., New Castle, Pa. Dr. Miles' Nerve is sold by your druggist, who will guarantee that the bottle is genuine. If it fails, he will refund your money. Miles Medical Co., Elkhart, Ind.

TARIFF REFORM

Not the Paramount Issue, Says Bryan.

Trusts and Railroad Question More Important.

Nebraska Guest of Democrats of New York.

William J. Bryan's stay in New York was marked by an address at the Board of Trade and Transportation and an interview he gave out on the issues of the next presidential campaign.

Trusts, the railroads and the tariff will be the issues in the next presidential campaign in the opinion of Mr. Bryan. He regards the outlook for the Democratic party for next year as very good.

In the course of an interview he was asked to give his idea of a progressive Democrat, and he replied:

"In every country there are two extremes in politics—the radical and the conservative. It is the aim of the progressive Democrat to steer a middle course between the two and to take up all great measures and solve them. This year I find the Democratic party to be in excellent condition and more united than ever, while on the contrary the Republicans are divided. There are two elements in the Republican party, one which I might call the extremists and the other 'the stand-patters,' the latter representing those people who have put their hands in the other people's pockets and wish to keep them there."

Asked if he considered the question of tariff reform as essential to the Democratic platform for the coming campaign, Mr. Bryan replied:

"I have been a tariff reformer for years; I have talked tariff reform for ten years prior to the campaign of 1896; I believe in it now, and have always believed in it, but there are other questions before the people relatively more important at the present, such as the trusts, railroads, etc. I believe that the Democratic party in its national platform will take cognizance of all three of these questions, but in my opinion, the tariff will not be the paramount issue."

"The financial issue is not the same now as it was in 1896. It is not due to the Republican party, however, but to natural causes, such as the world's increase of gold supply, which has accomplished in a measure what I tried to accomplish in the campaign of 1896. As a matter of fact, we are all regulators now. The dollar of today is not the dollar of 1896. The dollar of today is at least 30 per cent. less in purchasing power than in 1896. The cost of living has greatly increased, so that the face value of a dollar today does not at all compare with the purchasing ability of eleven years ago."

Mr. Bryan reiterated his belief in the principles of the initiative and referendum and municipal ownership.

"A FARMER'S COMPLAINT." In his address before the Board of Trade and Transportation, where he was entertained at luncheon, Mr. Bryan spoke on the relations between the farmers and those engaged in trade and transportation.

"There has been a great deal of misunderstanding between the farmers and those engaged in trade and transportation," he said. "We must get together. The farmer is at the foundation of all wealth. Trade is essential to progress and the farmer knows it. There is no feeling of dislike on their part of those with whom they have trade relations. They have need of you gentlemen and the trade. But they hold in economy of things that you must furnish them certain things for a just compensation—they want you to let competition settle the amount of compensation."

For Nervous, Over-worked and "Run Down" Women

Women in an exhausted, nervous state, due to over-work, continuous social functions or a general "run down" condition of health, often wonder why tonics and emulsions fail to benefit them. The reason is plain. Tonics and emulsions are good in their place, but they cannot build up the body until the nerves have been toned and quickened.

There's only one remedy that can restore health to women in this exhausted, nervous condition, because it acts directly upon the nerves.

Rexall

Americanitis Elixir

Is the only remedy of its kind in existence. As its name implies, it's a specific for the peculiar exhausted nervous conditions resulting from the continuous rush and tension under which Americans live. This remedy fills an important gap in the line of medicines.

Rexall Americanitis supplies to the body just those elements which Nature cannot supply in sufficient quantities to meet the unnatural drain upon the nervous system.

Phosphorus in soluble form, is the basis of this splendid nerve food. Thousands of women have been saved from nervous prostration by the prompt use of Rexall Americanitis. To all conditions of nervous derangement, exhaustion and debility it brings permanent relief.

GLOOMY CUTLOOK.

June Crops Backward and Give Little Promise.

Cut Worms Get In Work and Cool Weather Retards All Farm Work.

A gloomy outlook for crops of all kinds is the tenor of the June report of the State Agricultural Department, issued by Commissioner Hubert Vreeland. Crops have been retarded by frost and cool damp weather, and cut worms and army worms are reported as plentiful and doing much damage in some sections. Much of the corn land has not yet been planted and there are reports from many sections of shortage in tobacco plants and only a small per cent of the crop planted.

Why Vinol Is Better Than Any Other Remedy to Restore

Health and Strength

Because Vinol is a real Cod Liver Preparation and does not contain a single disagreeable or harmful ingredient and is not a secret formula.

Because Vinol contains all the medicinal elements—the soothing, healing, strengthening and flesh creative properties of Cod Liver Oil—but without oil or grease.

Because everything in Vinol,—except the tonic iron and a fine old wine,—is actually extracted from fresh cod's livers and their oil.

Because Vinol is deliciously palatable and agreeable under all conditions. Everybody likes it.

Because Vinol tones up the system, strengthens every organ, nerve, muscle and fibre of the whole body and thus overcomes weakness by thoroughly eradicating the cause of disease.

That's Why Vinol is altogether different and better than any other remedy for Coughs, Colds, Bronchitis, and All Throat, Lung and Wasting Diseases.

That's Why Vinol Restores Health and Strength to Delicate Children, Feeble Old People, Weak and Sickly Persons, Nursing Mothers, and Convalescents.
